IN HIS NATIVE STATE

Taft Attacks Roosevelt and the Bosses, and Strikes Blows fin Deense of His Own Administration.

Cincinnati, O., May 6.—Driving rain at most of the places where he stopped did not deter President Taft, who arrived here to-night, from getting into the political battle in Southwestern Ohio. All day, before crowds varying from 500 to 2,500, the President defended his administration, denounced Roosevelt and bossism—Ohio bosses in particular—and discussed trust legislation.

H. C. Laylin, chairman of the Republican Executive State Committee; General C. H. Governor, former Representative from Ohio, and a delegation of State organization men accompanied the President's special.

the President's special.

To-day's speaking tour, which will be followed by a strenuous campaign swing Wednesday, and after that the President's Princeton trip next week, indicates that he will have the fight of his political carcer.

The President began his fight today by openly assailing Walter F. Brown, chairman of the Ohio State Central Committee, the Roosevelt leader, and Dan R. Hanna, son of the late Mark Hanna, and owner of several Ohio newspapers, as well as a supporter of the Cologel.

"I am a man of moderate words," the President said at Hamden, where he spoke after making addresses at Nelsonville and Athens; but sometimes I have to restrain myself. All I can say is that anybody who says I am not in favor of popular government, says something that is not true; that is all."

In his speech at Nelsonville, hap made his first attack on Walter Brown, when he said: "You have Walter Brown, when he said: "You have Walter Brown, who is hustling around in this State to enlarging his power. What bosses who is hustling around in this State to enlarging his power. What bosses am I upholding? I could go over the

While Eczema, Aone, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities infiame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually keptup while the blood remains infected. This scudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S. S. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy.
